Joinery

Screeding/Flooring

Interior Finishes

OUR RECRUITMENT PROCESS

Identify Recruitment Needs

We take the time to understand the needs of your business, working collaboratively with you to understand exactly what the right candidate needs in respect of experience, values and professionalism.

Recruitment Plan

At Peel, we set out a clear plan to ensure we understand all aspects of what your company opportunities, we grasp all details of the job specification, discuss the salary bandwidth and location of works to understand if its fixed to office/Hybrid/Remote.

Sourcing

We dedicate our time to source the best candidates available on the market across multiple platforms adding them to our talent pool. We source from multiple job boards, job posting, head hunting, private candidate groups, open days and other resources. Following this we screen the candidate and have a detailed phone/teams conversation regarding all experience, locations willing to travel, salary & package expectations to see if they are the correct candidate for your business.

Shortlist

Once we believe we have the right candidates for your companies requirements, we will produce our formatted CV's with all candidates information topped with our consultant notes to get any additional information we believe is relevant to you.

Interview

We will run through full interview prep with our candidates before and on the day of their interview, we also provide a bespoke Peel Technical interview guide. We aim to guide our candidates through the interview process and make sure they are knowledgeable about the company and the job role, this will ensure the process runs smoothly for everyone.
